ABOUT US

We are a global import-export business specializing in sourcing and exporting high-quality products from India. Our focus is on providing seamless, cost-effective trade solutions across various industries, including Textiles, Leather & Imitation Jewellery to international Market. With a commitment to reliability and customer satisfaction, we handle everything from sourcing and customs clearance to logistics, ensuring smooth international trade for our clients. Let us help you connect with global markets and grow your business efficiently.

MISSION STATEMENT:

To facilitate seamless global trade by providing efficient, reliable, and cost-effective import-export solutions. We aim to empower businesses to expand their reach, connect with international markets, and grow sustainably through high-quality products and services, ensuring compliance with global standards and regulations.

VISION STATEMENT:

To be a leading global trade partner, recognized for fostering economic growth and international collaboration. We envision a world where businesses of all sizes can easily access and thrive in global markets, contributing to a more interconnected and prosperous global economy.

OUR PRODUCTS

www.globaltiaraexim.com

Our range of hemp & bamboo fabrics includes a variety of weights, weaves, and finishes, suitable for a wide range of applications. Whether you are looking for fabric for clothing, accessories, or home textiles, we have options to suit your needs.

Our fabrics are known for their breathability, strength, and natural beauty, making them a most picked among designers and conscious consumers alike.

WHY HEMP?

At Global Tiara Exim, we believe in harnessing the power of nature to create high-quality, sustainable fabrics. Hemp, one of our primary materials, stands out for its exceptional environmental and functional benefits. Discover why hemp is a superior choice for eco-conscious consumers and innovative designers alike.

ANTI-MICROBIAL

SUSTAINABLE

UV-RESISTANT

HIGHLY
BREATHABLE

SOFTER AFTER
EVERY WASH

BIODEGRABLE

- Hemp is one of the most eco-friendly crops in the world. It grows rapidly and requires minimal water and no pesticides.
- Hemp fabrics make long-lasting garments and textiles, as they maintain their integrity over time.
- It also has excellent moisture-wicking properties, ensuring you stay dry and comfortable in any season. Hemp fabric softens with each wash, enhancing comfort without sacrificing durability.
- Hemp can be blended with other fibers to create a wide range of fabrics with different textures and properties.
- Hemp fabric is fully biodegradable, meaning it will break down naturally at the end of its life cycle without leaving harmful residues.
- Hemp possesses natural antibacterial properties, which help to reduce odours and maintain fabric freshness.

FOIL PRINTS

Crafted for sustainability and style, our textiles are luxurious and eco-friendly. Each piece features exquisite metallic foil designs that shimmer and catch the light, turning every item into a statement piece. What sets us apart is our exquisite foil printing technique, which adds a touch of glamour to our sustainable hemp textiles

ECO - PRINTS

Eco-Prints, also known as botanical prints or leaf prints, are created through a natural dyeing process that involves the delicate art of bundling leaves, flowers, and other plant materials inside fabric. This bundle is then steamed or boiled to transfer the pigments and tannins from the plants onto the fabric, creating one-of-a-kind designs that reflect the shapes and colours of the plants themselves.
