# Tomato Leather

Tomato-based material,  
As Leather Alternative.

Being conscious of the negative impact that the industries are causing to the environment by using animal and faux leather, the lack of sustainable material alternatives available to satisfy an ever-growing industrial demand, we created Tomato Leather — a sustainable tomato-based biomaterial often distinguished by its great softness at touch and performance for a wide variety of applications while complying with the most rigorous quality and environmental standards of the industry. Bioleather has its headquarters in Mumbai, India, Since its official launch, it has received important awards like Best Innovation in textile award by PETA India 2021. Bioleather is committed to create new sustainable solutions and promoting ethical practices through the industry value chains to help build a better world through the fashion industry.

# **Taking Care**

**This product is highly organic as your skin requires care.**

- Use only water base adhesive, do not use solvents.
- To maintain clean upholstered furniture and with a good appearance, use a mild soap solution and remove it completely using a white cotton cloth dampened in water. All light colors require more frequent cleaning.
- Do not clean with solvents such as alcohol, acetone, paint thinner, bleach, oils, vinegar, waxes, silicones, armor all, stove (continental soda) or detergent cleaners, as these cause permanent damage in the material.
- Do not mark the furniture with an ink pen, ink could be absorbed into the product causing a permanent stain.
- For spills such as beer, wine, juices, soft drinks liquor, coffee, tea or chocolate simply clean the stain with a solution of mild liquid shampoo type cleaner water, dilute according to the instructions for use. rinse with a cloth soaked in water to remove completely the excess. Dry the surface with a dry white cotton cloth.
- Clean the spill as soon as possible especially if the liquid has a strong color.
- Stains sauces should be cleaned immediately to prevent staining. Prevent explosion to suntan oils in case this happens clean as soon as possible with liquid soap, try shampoo.
- Our products are protected to not transfer color to other materials, however some accessories with poor color fixation could transfer to our materials, if this happens, immediately wipe the stain with shampoo and a white cotton cloth.
- You can also use a solution of half water and half disinfectant. Preferably free of chlorine. Then rinse with water and dry.
- Use a solution using 0.5% hypochlorite of sodium in water, rinse with water and dry.
